## PROFILE

I am an experienced Front-End Engineer and Developer with over 15 years of expertise, specializing in WordPress theme development. My skills encompass HTML, CSS, JavaScript, UI/UX design and solid understanding of PHP. Passionate about advancing technologies in front-end development, I am committed to continuous learning and staying current with industry trends. My dedication to improvement and innovation ensures that I deliver high-quality solutions tailored to the evolving needs of the digital landscape.

## EXPERIENCE

### Front End Developer / Web/UI/UX Designer

2005 - currently employed

[Eton Digital DOO, Novi Sad, Serbia](https://www.etondigital.com/) (<https://www.etondigital.com/>).

Initially a small team of three (the owner, a developer, and myself as a designer and HTML/CSS/JS coder), we quickly gained recognition for our exceptional website designs, which were featured in numerous CSS galleries. Today, Eton Digital has grown to employ approximately 70 people, with offices in London, Nis, and Novi Sad. I am proud that my designs contributed significantly to the company's growth and success.

My responsibilities:

- Develop and maintain various web applications and websites for numerous companies and individuals, including well-known brands such as Virgin Media, Land Rover, Bosch, Martini, Kate Bush, and Ana Ivanovic...
- Design wireframes and translate them into visually stunning UI elements for web and mobile applications, resulting in smoother operations and enhanced user engagement.

- Deliver engaging user experiences through design, coding, code optimization, imagery creation, ensuring cross-browser compatibility, and adhering to best accessibility practices.
- Collaborate in agile teams (Scrum), providing continuous support to fellow team members.

## **Web designer**

2002 - 2005

Freelance

Built small websites for local businesses, friends, and family members, learning basics of web development through hands-on projects.
