

Dušan Stojanović

Front End Designer

stdusan@gmail.com | +381 (0)69 120 40 42 | Skype | LinkedIn | Github | Dribbble

PROFILE

Seasoned Front End designer and developer with more than 15 years of experience in blending the art of design with skills of programming to deliver the best possible web experiences. Passionate about everything internet related. Constantly learning new techniques, still eager to learn, share the knowledge and gain new experiences.

EXPERIENCE

Front End Developer / Web/UI/UX Designer

2005 - currently employed

Eton Digital DOO, Novi Sad, Serbia

Started as a company of three people (owner, developer and myself as a designer/HTML+CSS+JS coder), we quickly gained recognition due to our websites being recognised as top designs in multiple CSS galleries that were popular back in the day. Today, Eton Digital employs around 70 people and has offices in London, Nis and Novi Sad. I take pride in the fact that my designs were partially responsible to company's growth.

My responsibilities:

- Building and maintaining various web applications and websites for number of companies and individuals. Some of the more known ones are Virgin Media, Land Rover, Bosch, Martini, Kate Bush, Ana Ivanovic...
- Responsible for designing wireframes and translating them to visually stunning UI elements of web and mobile applications, thus producing smoother operations and enhancing user engagement.
- Working on delivering engaging user experiences through designing, coding, optimisation of code, creating imagery, providing cross-browser compatibility and best accessibility practices.
- Working in teams using agile methodology (Scrum) and constantly providing support for other fellow team members.
